**Idea: plant cherry trees for replacing fantasy crosses with fantasy dead bodies on it**

Dear Municipality of ...

Ladies and Gentlemen,

the crosses with dead bodies on it e.g. here ...

and here ...

these crosses with dead bodies on it are superstitions of the Gay Vatican from Rome, because

1) the dead body, which should represent a fantasy Jesus and who should "come again", has not come now already for 2023 years,

and

2) crosses are not natural.

Idea: So instead of crosses with dead bodies on them, it would be better to plant cherry trees, which would then be good food for the birds, so that there would be a happy birdsong for people to enjoy from June to October.

Kind regards
